Self-Archiving Steps

1 **Review copyright policies of your journal** **2** **Archiving preprints** **3** **Archiving postprints**

- What version can be archived (preprint, postprint, offprint)?
- Where can you archive (preprint server, university repository, personal website)?
- When can you archive?

- Post the submitted manuscript to a preprint server
- Post the preprint citation, DOI link, and PDF to your personal website or university repository

- Attach a user license to the first page of your accepted manuscript
- Post the full citation, DOI link, and accepted manuscript PDF to your personal or institutional website
